## Preface

The book you are currently holding contains the proceedings of the 6th WSEAS International Conference on E-ACTIVITIES (E-Learning, E-Communities, E-Commerce, E-Management, E-Marketing, E-Governance, Tele-Working / E-ACTIVITIES'07) which was held in Puerto De La Cruz, Tenerife, Canary Islands, Spain, December 14-16, 2007

The conference on E-ACTIVITIES started in 2002 in Singapore. In 2003, the conference was organized also in Sentosa Island of Singapore while in 2004 we brought it in Mediterranean (Rethymno, Crete, Greece 2004). It went in Miami, Florida, USA, 2005 and in Venice, Italy, 2006. The WSEAS E-ACTIVITIES (E-Learning, E-Communities, E-Commerce, E-Management, E-Marketing, E-Governance, Tele-Working) is the internationally recognized forum for the dissemination of the latest advances on E-Learning, E-Communities, E-Commerce, E-Management, E-Marketing, E-Governance, Tele-Working etc as well as their impact and their interaction with other areas of Science and Engineering. The various WSEAS conferences on E-ACTIVITIES has been successfully held each year since 2002 and has produced more than 10 volumes of Proceedings while the best papers and the invited papers after extension and after peer review from 4 international referees, are published in WSEAS Journals covered by all the major scientific indexes.

The E-ACTIVITIES'07 aims to disseminate the latest research and applications in the afore mentioned fields. The friendliness and openness of the WSEAS conferences, adds to their ability to grow by constantly attracting young researchers. The Conference this year attracted a large number of well-established and leading researchers in the aforementioned areas as well as Modern and Advanced Applications in Real Life. The meeting has always a special appeal to young researchers and are characterized by a friendly atmosphere in which delegates at different stages of their careers can talk to each other.

We would like to address to each of you a warm invitation for the 7th WSEAS International Conference on ARTIFICIAL INTELLIGENCE, KNOWLEDGE ENGINEERING and DATA BASES (AIKED'08) (that will be held in the University of Cambridge) where our “father” Prof. **Lotfi A. Zadeh** will be for 4th time Plenary Speaker in a WSEAS Congress presenting the Plenary Lecture: “*Toward Human-Level Machine Intelligence*”. Details:

<http://www.wseas.org/conferences/2008/cambridge/aiked/Plenary1.htm>

We would like to thank all members of the organizing laboratories for their contribution to the organization of the conference.

The contents of this Book are also published in the CD-ROM Proceedings of the Conference. Both will be sent to the WSEAS collaborating indices after the conference: [www.worldses.org/indexes](http://www.worldses.org/indexes).

In addition, papers of this book are permanently available to all the scientific community via the WSEAS E-Library.

Expanded and enhanced versions of papers published in these conference proceedings

are also going to be considered for possible publication in one of the WSEAS journals that participate in the major International Scientific Indices (Elsevier, Scopus, EI, Compendex, INSPEC, CSA .... see: [www.worldses.org/indexes](http://www.worldses.org/indexes) ) these papers must be of high-quality (break-through work) and a new round of a very strict review will follow. (No additional fee will be required for the publication of the extended version in a journal).

We cordially thank all the people of WSEAS for their efforts to maintain the high scientific level of conferences, proceedings and journals.

The Editors
